Dear Sir/Madam

It has come to our notice that according to the working draft of the New Constitution

re: Bill of Rights - Property Clause Options 2 and 3, mosques will be subject to demolition and expropriation "for a public purpose or in the public interest."

We, the trustees of the DANNHAUSER ISLAMIC SOCIETY view this in very serious light. According to Islamic Law a Mosque is sacred, it and the ground on which it stands can NEVER be sold, demolished or expropriated.

Please ensure that the Mosque be exempt from the above clause.

We hope that you will give this matter your kind and immediate attention.

Yours faithfully

2.  MC Chohan - Trustee
3.  CE Amod - Trustee

Theocracy Theocracy Theocracy Theocracy Viva

The Forum is established to mobilise users of dagga (marijuana) against intimidation, victimisation and arrest. Knowing what democracy implies the Forum will focus on freedom in and through justice.

Through the Forum's direct association with the defender of theocracy room is made for communication with the community, the church and the police. Because the community believes in God and its Saviour: and because the police associate with justice there are many spiritual characteristics which identify us as members of one large family. A family searching, thirsty for the freedom, equality and justice of our Creator.

Theocracy, or God's government, will realise the prayer and quench the thirst of South Africans who believe in our Creator and his government. The Forum requests those present to hope and belief in our Saviour.

Because the Forum preaches dagga as the tree of life as specified by the Bible and because the Forum believes in Jesus Christ the Son of God and because the Forum preaches the government of God there are many spiritual aspects which identify us as children of God searching for the salvation of Jesus Christ and his government.

The Forum's association with justice appears to reflect clearly the space for understanding and cooperation with all servants of justice. Because law and justice go hand in hand there is definitely space for understanding and interaction between the forum and maintainers of justice. As Coloureds we are children of Africa, loyal to the father of Africa his eternal majesty King Haile Selassie I, our light to the wonderful freedom of Jesus Christ and his government, Theocracy.

The Forum wants to express the hope that more space will be created for closer ties where man's freedom, welfare and prosperity will be discussed in a climate of divine justice.

The Forum makes an appeal to all relevant parties for closer cooperation to ensure that the delicate beauty which has developed in Helenvale will not be harmed. The germinating seed of theocracy is busy developing in the hearts and minds of the Helenvale community. Should the church and police assist in promoting the development of theocracy, then we assure that the light in Helenvale will light up South Africa. The light of theocracy will lead South Africans to the freedom which God can offer man in his government...theocracy, a moderate freedom.

Furthermore the Forum wants to get rid of the myths with regard to dagga with medical literature composed by experts in their area. Please see attached documents. At spiritual level there is understanding amongst us for the, as quoted in "Barnes notes of revelation" that "dagga makes you one with God".

It is that motive which inspires us to use the plant species "Cannibis Sativa". Under the dagga state of mind the realization came that God's government is theocracy. Under the dagga state of mind the forum and members campaign for the teaching and education of theocracy.

As Afrikaners we, as Coloureds, fought the evil of Apartheid which in injustice advantaged some people. The hell of Apartheid is known to us. As Afrikaners we, as Coloureds, witnessed the evil of democracy. We are witness to the murder of his eternal majesty King Haile Selasie I by the forces of democracy in order to demonise Ethiopia into a democracy. The forum sees the "Affirmative Action of Democracy as synonymous with the Apartheid policy.

The Forum hopes that through interaction and cooperation the education of the community will enjoy priority to ensure that every Christian in every Christian community will be prepared for the assaults of democracy on all believers.

Furthermore it is a privilege for the Forum to convey, in the midst of spiritual anarchy, a message of hope, faith and love from Helenvale to South Africa.

As Coloureds, South Africans and Afrikaners we are convinced of the victory of good over evil. The Forum expresses hope for fruitful discussions in order to ensure community prosperity, spiritually and physically.

Loving greetings

DEFENDER OF THEOCRACY

Lectori Salutem!

Loving greetings in the name of our King, Redeemer, Saviour and Creator. Hallelujah, Hallelujah.

The Helenvale Dagga Forum (HDF) requests the community of Helenvale to study the constitution of the HDF. Furthermore we want to bring it to the attention of the community very pertinently that the HDF, as Christians, were rejected by the Community Policing Forum (CPF).

Because the Helendale Dagga Forum has the interests of the community at heart we ask the community to educate one another in that knowledge. After you have studied the constitution, send it to the neighbours until the whole community has read it.

The HDF makes an appeal to Helenvale to stand together to point out the beauty of Helenvale to South Africa. The HDF in the same breath requests the police and the church to make a pronouncement with regard to Theocracy, the Government of our saviour Jesus Christ.

Loving greetings

HELENVALE DAGGA FORUM

As dagga-smokers, sons and daughters of Africa, we salute the reader with faith in our Creator, his Son and his Government, Theocracy. Love from Helenvale.

The Helenvale Dagga Forum is being established to point out the beauty in Helenvale to South Africa. Under the dagga state of mind we acknowledge and profess our almighty God (Jah Rastafari), we profess Jesus Christ the Son of God and we acknowledge Theocracy as the government of God. The Forum will focus on the struggle of justice and freedom with regard to dagga smokers.

Dagga as culture, dagga as religion, dagga as medium of conversation and dagga as Tree of Life will serve as weapon in the joint struggle for freedom from prosecution by the Demon (Satan), his demos (peoples) and their strategy, democracy. Should democracy simplify freedom where is the freedom of the Coloured-nation with dagga as part of its culture and belief?

Should the government, the police, the church and politicians maintain any ties with the king of justice, I as dagga smoker request the immediate identification of the link in the truth about dagga..the godly truth.

Those who defended and justified the devil-philosophy, apartheid, under the umbrella of godliness, are the ones who doomed the tree of life, dagga, to evil. Beware of those who profess Teos (God) but who intimately mix with the demon and his strategy of democracy.

Should the justice of Jah be a mockery for the nations let the peace of God be like a dream to them ... to strive for, but never to be found.

Truths and Myths Truths and Myths Truths and Myths
Dagga (Marijuana)
Dagga (Cannibis Sativa)

God said his creation is good and this is the truth. Democracy says it is bad and this is a myth.

South African courts say dagga is undermining health and spirit...it is a lie...a myth. The Word of God says it is the tree of life...for both spirit and flesh.

Magistrates and judges, the church and politicians doom this as an evil and sin. Coloureds, brothers and sisters of BER praise almighty God (Jah Rastafari) for his creation. By using the creation (dagga) we found ourselves natural... we find ourselves as the faithful with Almighty God...as christians we find ourselves with Jesus Christ, the Son of God...by using dagga we find ourselves as fighters for the recognition of God's government, Theocracy.

Theocracy, with the king of justice as shepherd, offers all nations freedom, absolute freedom. The freedom of King Melchizedek, priest king of God. It is truth, absolute truth.

Dagga as part of Coloured culture is an absolute fact and not a myth at all. I make an appeal for pronouncement by those who preached democracy with regard to the origin of democracy. Does this idea have its origin God (Teos)?

The origin of the concept Theocracy is God and it is not a myth but an absolute fact.

We request truth...
Away with myths...

HELENVALE DAGGA FORUM (HDF)

The forum salutes all affiliates confident in the victory Good over Evil. Also, with the love of Jesus Christ in our hearts, the forum wish to extend it's warmest and sincerest greetings unto the community of Helenvale. Hallelujah, now and forever.

It is true that the forum had reached out to the Community Policing Forum (CPF), with the welfare of the community at heart. It is also true that the HDF has been warmly welcomed and invited to be part of the CPF, having the welfare of the public at heart. Confirmation to this extend can be obtained from 3 (three) very prominent members of the CPF. The HDF has great delight in introducing Major Kohl from the SAP, reverend Du Plessis from the church and Mr V. Peterson representing community.

These gentlemen can testify that the HDF never intended riding on their backs to achieve HDF goals and aims. The HDF never intended to abuse the CPF. The HDF did not born to abuse people...

The HDF came to light in Helenvale to focus attention on the beauty of Helenvale. Intentions in this regard can be confirmed by J. Saffier, TLC member. The HDF consists of people with integrity...HDF intent calling upon CPF to testify in this regard...

Until such time of testifying comes HDF salutes all people having the welfare of the public at heart and, in the same breath, condemns those leading the community into hurt...

One love greetings from HDF

Dagga made the inner divinity of the Hottentotte (Khoi) come to the fore. Under the mental dagga state of mind the Hottentotte granted life to Jan van Riebeeck and his following. Their hunger was stilled, their thirst quenched, their sick nursed and their stock supplemented, Dagga. Let us as humans always treat our fellow-man humanely.

Today, Dagga-Bennie, son of the Coloured Nation, under dagga state of mind, fights for the recognition of the Theocracy, guarantee of freedom for each nation.

The struggle continues ... Hallelujah

Freedom!

There is no golden mean...this everyone who identifies with the truth will realise: it is either democracy or theocracy. It is F.W. de Klerk's democratic right to continue his evil struggle against dagga. It is the democratic right of Frank Chikane (S.A.C.C.) to keep the silence about the tree of life. It is also the democratic right of Frank Hufkie, the magistrate and the prosecutor, to keep silent about the truth about dagga.

Through the rejection, disregard and suppression of the Theocracy, the Theocracy has the right to visit its suppressors and all who despise it with its rod ...

Dear Sir

We would like to convey a few important messages.

1. We would like that Section 10 (the Pass Laws), the Night Special, the Residential Permit and the Homeland Service Contract should be reinstated. You should also issue certificates of citizenship so that each persons' place of birth and origin may be known. There should a stamp from his/her place of origin.
2. We would also like that the practice of having tenants in the backyards, in the townships, should be abolished.
3. The Land Act as well Squatter Camps should be abolished.
4. Only members of the family and about 50 people should attend funerals. When a person dies, a funeral that is attended by too many people becomes very expensive. Children need to be educated. People treat funerals like parties. That is all they after. People should be buried even midweek in order to reduce funeral expenses. Our children's future should be guaranteed. They must be able to attend universities and follow educational programmes of their choice. Money should be saved in banks in order to mould the future of our children.
5. We would like that foreign investors, when they come to South Africa, should start in the homelands, so that they may create jobs for them in order that they may stop bothering the people who live in the urban areas of Gauteng.
6. Boys and girls of 14 to 18 years old, who refuse to go school and wander about in the streets, some of whom are selling newspapers in trains, are the ones stealing and rape. You should find an old building and make a home for them so that they may be taught manual work every day. They must be supervised very strictly. The police must monitor them because they have elected to live like animals. When they go to bed at night they should ask themselves why they refuse to go school.
7. A worker should take pension at the age of 65 to 70 years. This is our proposal. Early pension should be taken at age 60 or 55 years.
8. Public enterprises such as Spoornet, Transnet and the Commission on Finance should be monitored very closely. There should be special police who watch over them because some of the public servants who deal with money are corrupt. They misappropriate Government funds. We, the public, are aware of this. You should look into this matter.
9. Illegal aliens who jump our fences should be stopped. They

are the ones who are creating confusion and disorder in our country.

10. I propose that boys and girls who are wandering in the streets should be sent to camps and trained as soldiers. They may even be sent to other countries in order to be trained as soldiers.
11. Employees of Spoornet are the ones who are misappropriating Government funds because they deal with money on the trains. Those who pay out old-age pensions are also misappropriating funds. Bribery is rife among police officers and servants of Bantu Education.

Mabopane Community.

Dear Exec - Director

RE: Submission to the Constitutional Assembly Introduction

The legal system has not been accessible to people who are poor and unemployed. If one does not have an Attorney his or her property can be occupied illegally.

- The State Attorneys in the form of Legal Aid may evaluate a person's case and decide that it does not fall within its requirements.
- The public is not aware of the criteria used to evaluate cases for evaluation and does not even know that one can be represented by the State Attorney.
- Due to past experiences, it is not easy for people to trust that they will be justly represented by the State Attorneys.

FEW EXAMPLES OF THE SYSTEM BEING NOT ACCESSIBLE

1. If one is sold your property by an illegal Agent, eg. house or site: You may not lay a trespass case as the purchaser did not trespass only settled under the impression that he/she bought!
2. When someone owes you and refuses to co-operate with the Small Claims Court.
3. Intention to file a divorce or claim an abandoned child to a person given custody by the Court.

Summary of this example:

All this matter will be referred to a Civil cases and therefore needs an Attorney.

Only those who can afford representation by an attorney and have money will manage such difficult situations.

Abuse of power by the Courts

A person feels that he/she was treated badly by the Magistrate or Prosecutor of which a lot are Racist and Threatening if one is not having a Legal representative.

He goes to the Chief Magistrate or Prosecutor, they are friends or used to beach other, what else is the person expected to do. Some people are threatened or intimidated in the Courts of Law.

Submission

Our submission is therefore to ensure that there is Legislation to protect and make it simple for ordinary and poor citizens to have their rights respected. - To also ensure that everybody is equal before the law and begin to have confidence in the Legal system especially Courts of Law.

This submission is based on what our office experience daily and complaints from the public.

1. The Volkstaat Council is in the process of making final arrangements for a workshop with the Sub-Committee. 2. In view of the above the Council is of the opinion that it need not separately submit its comments on the draft constitution.
