Dear Ms Emmett,

Matla Trust has been made aware that public comment on the draft bill on an IBA is expected by July 5th. Matla Trust, as an organisation with a strong interest in the future of broadcasting in our country, especially as it may effect mass education programmes, feels strongly that it has not been given enough time to make a detailed study of the draft bill, and fairly consider all its implications.

We believe that, if public comment on the bill is to be more than token, more time should be given to the public to study the bill and formulate any responses to it.

We would be pleased if you could convey our concern to the relevant structures at the World Trade Centre.

Yours Faithfully,

Barry Gilder
