DR THELINS ELOFF,
ADMINISTRATION: WORLD TRADE CENTRE,
P O BOX 307,
ISANDO,
TVL.
1600

Dear Dr Eloff,

I want to thank you and the staff at the World Trade Centre for being helpful and friendly. It certainly helped to ease the tensions of the days.

Thank you especially for being concerned about me last week in my tearful state. I think everything was getting too much, when Fanie Jacobs made his very emotional statement on self-determination, that was the end for me. I did appreciate your concern. In this once wonderful country, people were caring and sensitive, but now it seems that it is a case of each man for himself.

You may or may not know that I joined the KP delegation because of our COSAG relationship and the fact that I served on the COSAG committee on violence. I have been very involved in running the support group for the SAP since September, 1989. I must admit that I was very naive four years ago, compared to the person I am today.

I doubt that I will return to the negotiating council. It was quite an amazing learning experience; one which will stand me in good stead in the future.

Please be kind enough to ask your administration office to forward any cheques for travelling expenses to me at the above address.

With kind regards and best wishes,
Yours sincerely,

Avril Budd
