Ms Amanda Armstrong
Chairperson
The Technical Committee on the Independent Media
Commission and the Independent Telecommunications Authority
KEMPTON PARK

Dear Ms Armstrong

The Board of the South African Broadcasting Corporation resolved at its meeting in Auckland Park today to request your Committee's approval for the opportunity to submit an oral submission on the proposed Independent Broadcasting Authority Bill.

Due to circumstances beyond its control, the Board of the SABC was hitherto unable to partake in the deliberations on this Bill which has profound implications for the broadcasting industry and thus also for the Board of the SABC in its future operations.

The Board of the SABC regards it as of the utmost importance to convey its views on broadcasting in general and on the implications of the Bill for the SABC in particular to your Committee prior to finalizing the draft legislation.

I have the full endorsement of the Board to prevail on you to afford us such an opportunity at the earliest possible date.

Yours sincerely

Dr I F Matsepe-Casaburri
Acting Chairperson
SABC Board
