Dear Sirs

## THE CONSTITUTION AND "SEXUAL ORIENTATION"

It has been brought to our attention that the new constitution being negotiated currently may encompass wording to the effect: ...."irrespective of race, creed, religion, colour, **SEXUAL ORIENTATION**, sex, .....etc."

To Christian people this is cause for great concern, because it would be legalising **HOMOSEXUALITY**. The Bible teaches very specifically against sexual diversion and perversion. Furthermore, our children will be put at risk in schools where homosexuals will have the right to work, and probably operate legally.

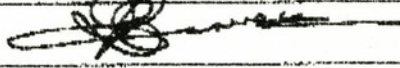

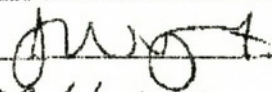

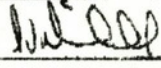

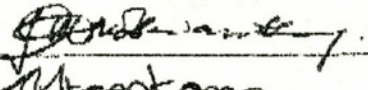

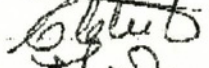

We, the undersigned, wish to record our strongest objections to the remotest possibility of incorporating such a clause in the new constitution of our country.

We would join millions of loyal Christian South Africans who strive for a society with the highest of moral values, and who will look to the leadership of the land to have the courage and conviction to set the tone for a nation seeking to encourage exemplary behaviour among a proud, and united people.

Yours for a South Africa with character and strength -

The undersigned [overleaf]
