---

**Dear Frene,**

The Balloting and Elections Project of IMSSA is hosting a conference on the 30th and 31st July 1993 at the Garden Court, Milpark.

We have invited Electoral Commissioners and Officers from Angola, Brazil, El Salvador, Panama, Namibia and Bulgaria to share their experiences, looking at the social and political conditions prevalent in their respective countries prior to the calling of elections. We will also be looking at issues such as the pre-election period, covering eligibility, registration, voter education; during the election period, covering issues such as staffing, monitoring and marshalling, peace-keeping and process; after the election, covering issues such as counting the votes, announcement of the votes, the response of the winners of the winners and losers of the election and other related issues.

We would very much like for our speakers to meet with the members of the Technical Committee on the Electoral Commission and would be very pleased if some time could be made available for such a meeting to take place. Our speakers will be in South Africa from the 28th July and would be available on the 29th July, after 4.00pm on the 31st July or the morning of the 1st August.

We would be pleased if you could advise if it would be possible to meet with the Committee and the time suitable to you.

**Sincerely,**

Ilona Tip
