Dear Dr. Eloff

Technical Committee on Fundamental Rights during the transition.

The comments of the N.P.P. on the First Report of the
Committee.

Property Rights

In the South African situation, in addition to the normal rights of humans to own and occupy properties wherever they desire, there is the question of the restoration of such rights when people have had their properties siezed in terms of racially-based legislation.

In this respect such persons must have the rights of either the restoration of their property rights or be provided with suitable alternative not at market value.

With Kind Regards

A. Rajbansi

NATIONAL PEOPLE'S PARTY OF SOUTH AFRICA
