re: **LOCAL GOVERNMENT TRANSITION BILL**

1. The Bill in its present form is unacceptable.
2. The Bill attempts to reinforce the status quo with respect to local government structures through granting "exemptions".
3. Any bill concerning local government transitional structures should have its origin with the Local Government Negotiating Forum.
4. It would not be worthwhile for the Negotiation Council to debate the Bill presented to us, more so in view of the lack of time.
