*Melody,
Can you give me
advice please?*

Dr Theuns Eloff
Executive Director
Consultative Business Movement
P O Box 2352
2000 JOHANNESBURG

Dear *Theuns*

This is an unusual request and you must please let me know whether it gives you a problem. It concerns environmental matters.

I am one of the members of the board governing the affairs of the chair sponsored by BP and which is based at Natal University and is concerned with environmental policy. At our meeting today we discussed at length the importance of getting environmental policy on the agenda sooner rather than later and to this end it would be enormously helpful if we knew who amongst the key players at the World Trade Centre has an interest in the matter. The thought occurred to me that you might have picked this up over the many months of intense involvement you have had with all the participants, or failing that you might be able to with a few questions find out who might champion the cause.

I am certainly not asking you to make a case but simply to point us in the right direction. First prize of course has to be the appointment of a Minister of Environmental Affairs as has been done in many a country but failing that adequate priority and certainly some work in respect of the bill of rights and/or statement of ethical guidelines for good governors.

I would be grateful for any help that you can give me.

*Regards
Muel*
