re: OFFICE SPACE FOR THE PRESS AT CODESA

Dear Mr Morobe.

Thanks for your telefax of today, regarding office space for the Press at CODESA. SAPA would certainly like its own office space as soon as possible up to CODESA II, and possibly also thereafter, depending on the course of events.

We already have our own telephone line installed in the media room, and would require Telkom to transfer this to our office. Two power points would be preferable, but one would be adequate. To give you an indication of the office space we would need, our normal team of reporters for Working Group deliberations is three, and for CODESA II this would be increased to at least six.

Please let me have an indication of cost involved as soon as possible.

Yours sincerely,

MARK VAN DER VELDEN
