RE: TOP LEVEL TAPING ; GAYS AND LESBIANS DEMAND TO BE HEARD

South Africa is presently undergoing a very important phase of transition to a democratic society. Women are having their say, youth are being heard, the elderly are calling for increased pensions, but the gay and lesbian community says, they too have a right to be heard and that no form of discrimination can and should be tolerated against them.

On Sunday October 10, at 11:00 Top Level will record a programme focussing on gay and lesbian rights. What is your political party's views on this subject. According to Glow, gays and lesbians make up of the community. They claim that any party that hopes to win the upcoming election, cannot do it without their support.

Please send us a delegation of five high level participants from your organisation who will debate the issue with us. We are expecting approximately 100 representatives from the gay and lesbian community.
