Attn : Mr Mac Maharaj

RE : COUNTERSURVEILLANCE

Dear Mr Maharaj

Further to our meeting yesterday we would like to confirm the following :

1. We are prepared to locate the manufacturer/s of the equipment used to carry out various telephone line sweeps. This will be made easier if the agencies involved reveal the make and model types of the equipment.

We will undertake to treat that information as highly confidential, and will not require to know the name of the agency/s involved.

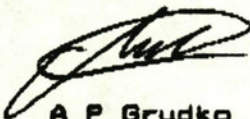

2. We will contact the manufacturer and consult with them as to their interpretation of the readings which were obtained, and will study the conclusions drawn by the agencies involved.

3. We are happy to quote for our company to perform room and telephone sweeps on a regular or ad hoc basis. However, we must point out that our methods of searching and sweeping are very different to those used by the agencies you have been using, and direct comparisons of our figures with theirs will be of minimal value. We will be in a position to give you a quotation as soon as we can inspect the premises in detail.

4. We would be pleased to consult with you on any security related matter, bearing in mind that surveillance and counter surveillance are our specialities.

If we can be of any further assistance, or you have any questions, please do not hesitate to contact the writer.

Yours faithfully

A P Grudko
