Dear madam

Thank you for your letter of 25/2/92.

Your advise is indeed highly appreciated. We can assure you that the outcome of the negotiations here at CODESA will be one that is sensitive to the varied interests and concerns of all South Africans of what ever colour or creed.

Your concern and obvious interest in the CODESA process will always remain invaluable to the process.

Yours Sincerely

Murphy Morobe

(Head:CODESA Administration)

Dear Sir,

ADVICE TO CODESA.

To Avoid bloodshed S. Africans must institute a Government which is made of different population groups. Whites and Blacks must choose their leaders (not illiterate) to form a Government. I am afraid of the Majority R. Work-load should not be left in the hand of chiefs and homeland-leaders. The Government should see to it that each and every area is developed. The infrastructure in the homelands should be the same as that of the sub-urban areas. This will solve the problem of unemployment.

People in the homelands should start paying rents and the income used for development.

In fact there will be no home-lands.

Mrs M. M. TAU

KROANSIAD.
