RE: TRANSCRIPTION OF TAPES PERTAINING TO THE CODESA DELEGATION VISIT TO THE UK IN APRIL 1992

Dear Prof Ripinga

Nomsa phoned me earlier today with a request from you to find out when the above-mentioned transcriptions would be ready. As I explained to her, and as Janet Love is aware, that date is unfortunately very far off!

I have been working on the transcriptions for nearly two months now and am less than half way through them. Firstly, the sound quality is very poor, which means it can take a whole day to unravel a few sentences! Secondly, I am presently supervising the setting up of a CODESA archive and have been asked to give this matter priority.

I know it must be frustrating for you waiting for this information, so I thought, if it would suit you, I could send sections through to you as I complete them. The following are the talks I have covered so far:

- + The Civil Service**
- + Independent Television Media**
- + The Police Service**
- + Electoral Law and Process (am hoping to complete by end of the week)**

If you would like me to fax these sections through, please let me know at your convenience.

You or Nomsa can contact me on my direct line at CODESA: 011-397-2185.

Kind regards

Ashley Symes
