ANC WESTERN CAPE PRESS STATEMENT

We are horrified to hear of yet another vicious attack in our region - this time on people travelling on a Translux bus from Cape Town to Johannesburg.

We extend our deep sympathies to those passengers who are suffering from injuries and shock after this senseless act of violence.

We strongly condemn this attack and call on the perpetrators - whoever they may be - to come to their senses. Those involved in attacks of this kind must realise that they must take responsibility, not only for their individual acts, but for contributing to climate of violence that may eventually consume us all.

Issued by Lerumo Kalako, Vice Chairperson
