PRESS STATEMENT

We wish to state clearly that, when we made certain allegations about the activities of one ambulance in Nyanga over the week-end, it was never our intention to imply that the ambulance service as a whole was in collusion with the SAP.

We deeply apologise for this misunderstanding and wish to assure the ambulance service that the allegations against the ambulance in question will be taken up as an individual complaint.

We also wish to appeal to the community at large to respect the safety and allow for the free passage of all ambulances throughout the day tomorrow. Ambulance drivers and staff should not be held responsible for the actions of one ambulance team and people should remember the very good service performed by this sector amongst the community at large.

Issued by Tony Yengeni, Secretary
