

My dear Brother South-African.

Why must we loose our identity in the "new" South-Africa? To be a South-African is good, but to be a S.A.-Zulu or -Venda, or -Afrikaner, or -N.sotho, or -S.sotho, or-English or -Brownpeople, or -Asian, or -Chinese, or -Portugese etc. is something to be proud of. It seems to be taboe to even utter the word Ethnic in the "New S A ." - WHY? The one that advocates this is one that has lost his ethnic-pride to another "power".

WHY NOT RULE THIS WONDERFUL COUNTRY ETHNICALLY? e.g:

The Zulu rules its own affairs, home affairs, local affairs, land affairs....whatever. How it gets its diverse leaders is its own affair.

Where you have a TOWN to run, what is wrong with forming a body out of the different ethnic inhabitants, chosen by themselves.

When you come to National Affairs then you must have equal representation from the diverse Ethnic Groups chosen by each themselves. Call it a Central Assembly or Government.

What is wrong with having a no-power President on a year basis, chosen by the central assembly to preside over the national body. The ministerial portfolios will be decided on by the Assembly. NO POLITICS.. NO VOTING..ONLY CONCENSES ON ALL ISSUES.. (You may vote or do as you like in your own ethnic-assembly, especially when building up your hierarchy)

What is happening over-seas should be and eye-opener for all of us and it is all because of friction between ethnics who have no identity.

SOME NON-ETHNICS WILL THEN HAVE TO REJOIN THEIR GROUPS OR MOVE OVER-SEAS.

Come on brother Zulu, N-Sotho, S-Sotho,Venda, Ndebele, Tswana, Khoza, Afrikaner, English, Portugese. Brown, Asian, Swasis, Basotho, etc. etc.,

POLITICS ARE OLD. OUTDATED, OLD FASHIONED AND NO LONGER REQUIRED BY A CIVILISED WORLD.

There will not be places for the "Power Groups" in the ethnic setup nor in the National Assembly. They will have to join their own ethnic groups, and be nominated by them.

So it does not matter where you reside in the S.A. You remain a member of your very own clan. You have full voting powers to elect your leaders from the lowest to the highest position.

You already have most of the infra-structures available to you, so there is no need to wait.

REGROUP.....REARRANCE.....AND RELIVE.

Go now to CODESA AND CARRY ON WITHOUT THE POWER ELEMENTS.

Go now for a better SOUTH AFRICA...Our own.

I am a S A ETHNIC.
