Dear Sir/Madam

SUBMISSION ON BROADCASTING AND FILM TO CODESA

In my letter of 2 March 1992, I requested an extension of one week for our joint submission on broadcasting and film from organisations of the independent broadcasting and film industry.

The organisations are still discussing the submission which we want CODESA to consider. As we are trying to get ten organisations to agree on complex issues relating to broadcasting and film during the transition period, the process of arriving at consensus is time-consuming.

We therefore request one final extension of one week until Monday 16 March 1992 to make our joint submission.

Yours faithfully

W. Currie
