Dear Mr Morobe,

Further to our earlier correspondence the Women's Bureau of South Africa would like to thank CODESA for appointing a Gender Committee as a step in redressing its gender imbalance.

We suggest the names of the members of the committee be made public and we would like you to know that all our services and resources are available to them.

At the same time we would warn that women's interests should not be swept into a "gender" corner, that women have a much wider role to play in determining the future of our country as PEOPLE. We shall continue to work to that objective.

With all good wishes,

MARGARET LESSING DMS
