

Dear Nathan,

Just a little personal note of
congratulations to yourself and your Party
on your magnificent victory in the Election,
and of good wishes for your Independence!
What a marvellous era! And how fortunate I feel
to have been able to witness just a tiny bit
of that great transformation ^{and capitulation} of your Party - the
past few years, through the ~~fortunate~~ accident of
being here - Mexico.

~~to have been able to personally~~

Forward to further victories!
Long live the just struggle of the
oppressed peoples!

Dear comrade,

Just a little purely personal note of
congratulations on your magnificent victory in
the Elections, and also to express my joy
at the impending Independence of your
country. Who will ever remember the suffering
that went into that achievement, the courage
required? The testimony that you and your
comrades so effectively led at the Inquiry
in Brussels last year will forever remain
in my head.

Forward to further victories!
Long live the just struggles of
the oppressed people!

Albie Lach.
