As you can see, this means that only 4 out of 19 sets of minutes were received by the deadline. Three more came in by the end of the day. The bulk of minutes (12) came in a day or more after the deadline. The last set (WG4 SG4) was received at 17:30 on Thursday 20 February.

I will keep a similar log of minutes this week, in an effort to establish how realistic a 12h00 Wednesday deadline is.
