Dear Sir,

Re: Article in D/News 12 Feb - Invitations of
Submissions from All Interest Groups

I read with interest the article which stated, inter alia, that Codressa wants to "Encourage the greatest possible participation by all groups from Every walk of life", you're inviting submissions from the Public.

Since your group has the meritorious task of setting out a theme book on which the NEWSA will be built/Nurtured, you have a daunting task & I wish the Working Group members all success.

Can you send me the "terms of reference" of your group, which I can pass on to the 2-3 Community based Organisations I'm a member of, for study & submitting suggestions.

However your March 2nd deadline is too near & should be extended, if an adequate response is expected.

Regards
S. H. Thaker
