

SPECIAL REPORT FROM WOODSTOCK BRANCH INFO CENTRE

1. Security of Ballot Boxes and Lack of Public Toilets

We the Woodstock Branch feel that there are inadequate measures taken to guard full sealed ballot boxes as report by our party agents. These ballot boxes are currently placed inside the polling station with inadequate monitoring by I.E.C. and the police.

The situation was exacerbated when a toilet in the hall had to be used for the public because facilities are not available. The existing public toilets are locked and could not be used because of " security risks"

2. Suggested Solution

- I.E.C. should organise proper security for full ballot boxes at the polling station.
- Public toilets should be opened or mobile facilities should be provided.
