Dear Pravian

Herewith a suggestion which will make it possible for T.L's to participate as "invities" and not as "participants". Perhaps there is no compromise available - on the other hand it is worth trying.

"Each of the four delegations should be invited to participate fully in such activities of Codesa as it may deem to be appropriate taking into account the special position that Traditional Leaders occupy in their communities.

Yours sincerely

*L. Hamman*
