ANC WESTERN CAPE PRESS STATEMENT

We wish to invite all representatives of all sectors affected by the violence, either directly or indirectly, to attend a meeting on Monday evening. The meeting will take place at 6pm at FAWU on NY1. Escorts will be provided from the Montana (Shoprite) shopping centre from 5.30pm.

The purpose of the meeting is to engage the Cape Town community in a process of finding solutions to the growing climate of violence in our city and our region and to address the problems as a matter of great urgency. Only if all Capetonians unite to stop the violence can we hope to save our region from civil war.

We therefore call on all organisations and sectors - education, health, sporting, youth, women, business, services and others - to attend this meeting so that we can begin to work together on a solution that will stop the violence once and for all.

Issued by Allan Boesak, Chairperson
