I thank the Chairman for giving this chance of talking about Passes. The Government tells us that the white people carry Identity cards, but they are not stopped on the streets.

The white people do not go to Pass Offices when they seek work.

When they go ~~we~~ on holidays, their Identity cards. The identity ~~cards~~ cars do not affect the white people in living with their families. We have long been complaining about Pass. We have consulted the Native Representatives at Parliament but that was in vain. Now the Pass have gone too far. That is what/y we have asked the people to take a step about Passes. We do not want any blood shed. We are going to have a procession to the Police Stations and the people will leave their passes behind. We want to live peacefully in this country of ours where we we borne. We will never stop.

I must thank the Chairman for giving me this opportunity to speak about the pass laws.

For too long now have we African people had to carry this burden. This Government tells us that the White man also has to carry identity cards. But the White people are not stopped in the streets and arrested for leaving their pass at home. If the Europeans want a job, they do not have to go first to the pass office. If they want to go away to Johannesburg on holiday they do not have to get permission. Their passes do not stop their wives and children from living with them. It is these passes that oppress us and make White domination strong. For ^{long} ~~many~~ years now we have complained about the Pass Laws. We have had hundreds of deputations to the authorities. We have spoken to the Native Representatives in Parliament. None of this has helped. In fact, ^(now the passes have gone too far) the passes are worse now than they have ever been. That is why we are calling upon the African people to take ^(a step about passes) positive action. We do not want any bloodshed or violence. We want the people on the appointed day ^(to have a procession) to march peacefully to the Police Stations, and to leave their passes at home. We, the leaders, will be in front. We shall tell you what to do next. In this way we will challenge White domination and we will ~~also~~ show the world how we hate racial oppression. We will not rest until the pass laws are abolished. We look forward to the day when we shall never have to carry passes again. We shall never give up the struggle for freedom in the land of our birth.

This meeting has been called to protest against the pass laws. It is these laws that break up our families and give the Government ^{the chance} to chase us around the country. The White police and the African police wake us up in the middle of the night to see our passes. If the nationalists continue to carry on in this way, they must not be surprised if the African people say " We will not carry passes, for they are like chains around our necks. The White people teach their children to hate us. Does this mean we must teach our children to hate the Whites? We must not do the same to the Afrikaners as they do to us. We have ^t White Domination, but not the White people as such. I say that this Continent of Africa belongs only to those people who regard it as their home. European imperialists have no right to oppress the people of Africa.
