Dear Sir

I understand that the Codesa Working Group 2 is concerned, inter alia, with consideration of new national symbols for this country. In this regard I wish to inform you of the existence of our Association. We would be very happy to share our expertise with you, particularly in respect of the design of a new national flag.

The Southern African Vexillological Association (SAVA) has as its objectives:

- i) to record and preserve any and all information relating to flags in general and the flags of southern Africa in particular;
- ii) to undertake research and study programmes, organise conferences and symposia, and to exchange information on flags and related matters with similar Associations and Institutions elsewhere in the world; and
- iii) to act as an information source for the general public and any interested bodies on all matters pertaining to flags.

The Association is a non-profit, non-political and non-sectarian organisation. SAVA is affiliated to the International Federation of Vexillological Associations (FIAV).

Our members have wide experience in designing flags and have been involved with the design of the national flags of Zimbabwe, Lesotho and Namibia. Some members have also been involved with the design of military flags in this country.

I appreciate that a number of very important tasks are being dealt with by Codesa's Working Groups, but wish to convey SAVA's willingness to assist if required to do so.

Yours faithfully

**BRUCE BERRY**
