CISKEI GOVERNMENT
SUBMISSION TO CODESA WORKING GROUP 4/3
LAND MORATORIUM

1. It is agreed that a land moratorium be applied to the transfer of new land area to TBVC states.
2. No moratorium should be applied to the transfer of land areas to individual communities who have been promised compensatory land by the RSA and who have not as yet received the land promised. This might not necessarily involve extension of borders.
3. In Ciskei there are a number of land issues which fall into (para 2 above) and full details have been supplied to Sub-Group 3.
4. These matters should be brought to the immediate attention of the South African Government.
