## THE DIKWANKWETLA PARTY OF SOUTH AFRICA

### 2. TERMS OF REFERENCE : (PROPOSALS AND RECOMMENDATIONS THERETO)

2.1 (On item 1.1.1) : To investigate and report upon all proposals and make recommendations with regard to the relationships between South Africa, the TBVC states and the people of those states under a new South African constitution.

#### 2.1.1 Proposal and Recommendation

We propose and accordingly advise that the South African government be urged, to facilitate through Parliament, for the process of the orderly dissolution of the independence of the TBVC states under the plan of grand apartheid, and, **mutatis mutandis**, to promulgate a remedial **TBVC States Invalidation and Re-Incorporation Act** by which South Africa shall, prior to the new constitutional order for South Africa, take over and resume overall authority over the general administration, good government and accountability of the affected territories. The TBVC states having effectively been re-incorporated into the mainstream of South Africa's polity should be integrated into alternative, carefully mapped out regional and local geo-political entities with greater socio-economic equity viability and potential with the ultimate goal of a new South Africa founded on the principles of constitutional federalism.
